

Itron Corporate Environmental and Sustainability Global Vision and Policy Statements

Environmental and Sustainability Vision Statement

Itron strives to protect the environment, empower its people, and help our customers create a more resourceful and sustainable world. We are committed to achieving our goal of “net zero.”

Environmental and Sustainability Policy Statement

Itron incorporates sustainability into its business activities. We also positively influence our customers, shareholders, partners, suppliers, and the communities in which we operate by:

- Understanding our stakeholders’ environmental and sustainability aspirations
- Innovating products and solutions that amplify sustainability efforts
- Operating our business in a manner that reduces our impact on the environment
- Actively monitoring and reducing Scope 1, Scope 2, and Scope 3 carbon emissions in collaboration with our stakeholders
- Adhering to prevailing environmental regulations, legislation, and other relevant obligations
- Driving improvement of our Environmental Management Systems in accordance with ISO 14001
- Continuously improve our environmental performance including reducing waste, water usage, air pollution, and energy consumption
- Collaborating with our suppliers to minimize waste, enhance environmental practices, and ensure sustainable operations
- Upholding and continually improving Itron’s Environment, Health, Safety and Risk Management practices
- Regularly communicating our sustainability results to our stakeholders
- Promoting environmental and sustainability awareness through frequent training

Itron envisions a world where our business operations are seamlessly integrated with environmental stewardship objectives. Together, we can move towards a brighter, sustainable, and more resourceful future.
